

NORTHERNLIGHT EYE CENTER

WHO ARE WE

NorthernLight Eye Care is an eye care brand positioned to be one of the best and leading sight savers in Africa and the world at large. The treatment for eye diseases ranges from refractive errors, medical & surgical management of cataract, glaucoma, and other eye diseases etc.

NorthernLight is heavily involved in corporate social responsibilities (CSR), here we set up eye camps for indigenes in rural areas to assist them with our eyecare services. These rural engagements are led by community health directors (CHD). Blindness remains a key barrier to development and good health is the centrepiece of development and poverty alleviation, this is why NorthernLight has become and will continue to be a beacon of hope to those who can't afford good eyecare services.

OUR MOTIVATION —

MISSION STATEMENT

Our mission is PATIENT-CENTRIC.

- We aim to provide affordable yet professional eye care services to everyone. No matter who you are our mission is to save your sight.
- We aim to provide empathetic listening, clear communication, and personalized care that respects the unique values, preferences, and goals of each individual. By doing so, we seek to build lasting relationships, achieve exceptional outcomes, and make a positive impact on the lives of those we serve."

VISION STATEMENT

Our vision is to be the leading provider of innovative, comprehensive eye care solutions. We are combining cutting-edge technology, expert medical knowledge, and a commitment to excellence to deliver unparalleled results for all our patients."

PATIENT SATISFACTION

HOUSING MINISTRY CONDUCTS FREE EYE SCREENING FOR STAFF

<https://fmhud.gov.ng/read/3587>

Justice Amadi of Northernlight Eye Center emphasizes that the free eye screening program is a vital step in addressing the rising concerns over visual impairments. He explained that the program focuses on identifying individuals with visual abnormalities and offering suitable treatment in line with the World Health Organization's objectives.

FREE SURGICAL OUTREACH TO GOMBE STATE, NIGERIA

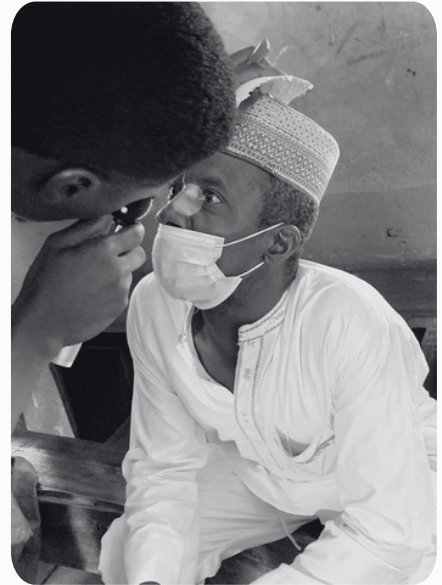

NorthernLight Eye Centre has brought hope and clarity to countless individuals in Gombe State. By offering free eye screenings, treatments, and surgeries, they have transformed lives by restoring vision. This initiative has brightened communities, highlighting the significance of compassion and accessible healthcare. NorthernLight remains dedicated to promoting sight, dignity, and brighter futures throughout northern Nigeria.

FREE SURGICAL OUTREACH TO LAFIA, NASSARAWA STATE, NIGERIA

We arrived in Lafia, Nasarawa State, with a singular mission: to restore more than just vision, but to rekindle hope. We distributed free medications and glasses, and performed cataract extractions for several individuals. Each smile that emerged after regaining sight mirrored our purpose: regardless of who you are, our mission is to preserve your sight.

MR. JOHN CAN SEE AGAIN A MIRACLE AT NORTHERNLIGHT

Mr John was a farmer from Nassarawa state Nigeria whose vision suddenly began to diminish. A very agile person now needs the help of his family members to move around. He struggled with everything because he can't see and as the condition grew worse he barely could recognise anyone.

The lack of funds made it impossible for him to get the right treatment for his eye disease, the income from farming wasn't sufficient enough to afford him an eye surgery.

Then one day, someone who had accessed care from our organisation told his wife about NorthernLight Eye Centre, immediately they called the office line and asked where our camp location was and our front desk told them.

He was thoroughly examined and was told his treatment will be completely free, the joy on his face was palpable knowing that for the first time in months, he would see again.

The surgery was successfully done and Mr John has returned back to his farm.

NorthernLight will continue to stand as a beacon of hope to those who have lost hope.

IMPACT SNAPSHOT TILL DATE (2023–2025)

- The total number of patients seen is **25,000**.
- Total Number of Eye Surgeries **1,100**
- **50** eye camp locations with a minimum of **5** local staff

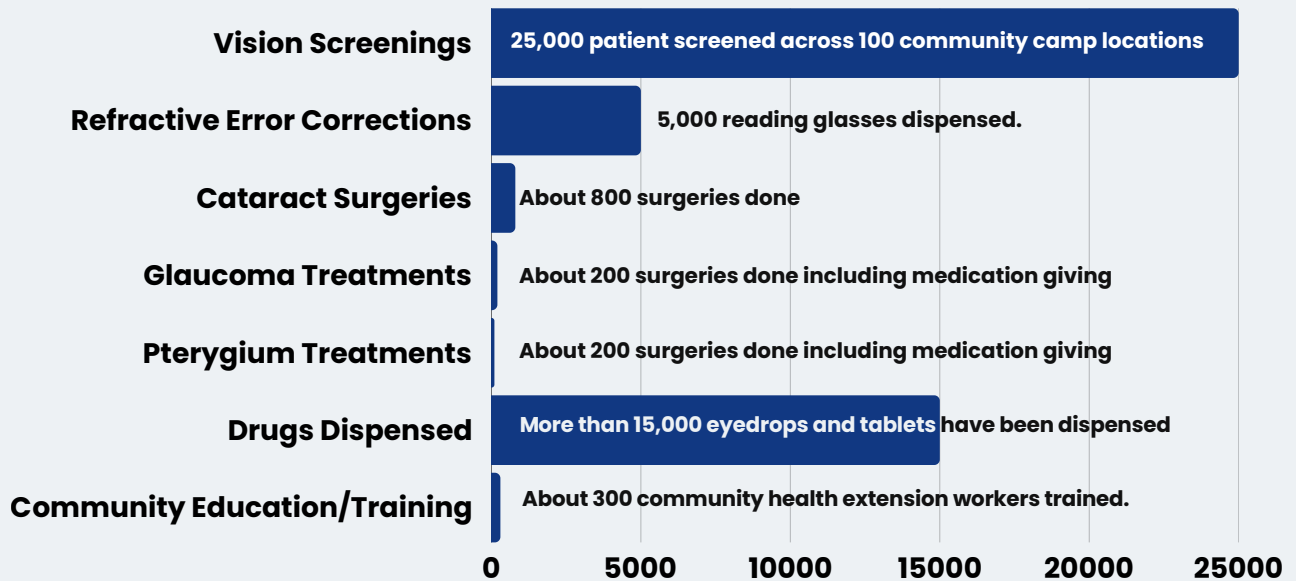

IN 2025 NORTHERN LIGHT EYE CENTER HAS ORGANIZED SOME CORPORATE SCREENING CAMPS FOR FEDERAL PARASTATALS, PROVIDING VITAL EYE CARE SERVICES.

KEY STATISTICS INCLUDE:
